

HITEC University, Taxila

Department of Electrical Engineering

Program Educational Objectives (PEOs)

Batches 2022, 2023 & 2024

- PEO-1** Our graduates will be proficient engineers in industry, academia or manage self-initiated business activity.
- PEO-2** They will exhibit adaptation to advancements in knowledge for creating solutions of complex problems.
- PEO-3** They will contribute as effective team members and managers in their organizations.
- PEO-4** In dealing with others, they will conduct with dignity, integrity and demonstrate commitment to social responsibilities.

Batches 2025 & Onward

- PEO-1** Utilize advanced electrical engineering knowledge and tools to analyze, design, and address modern engineering challenges through innovative solutions.
- PEO-2** Promote ethical integrity, sustainability, and inclusivity in engineering solutions to encourage fair socio-economic development and environmental responsibility.
- PEO-3** Lead teams or entrepreneurial ventures by leveraging technical expertise, collaboration skills, and industry partnerships to create market-driven innovations.
- PEO-4** Pursue lifelong learning and advanced studies through professional development, research, and higher education to adapt to technological changes and contribute to knowledge creation.
